Ascender 48 multi-screen Mixer Seamless Switcher to feature exclusive real-time perspective layer animation
- InfoComm 2014 – Booth #C7125 -

June 2014 – Analog Way is pleased to unveil an outstanding new feature developed for the Ascender 48: real-time perspective layers. An exclusive preview of the Ascender 48 updated with this unprecedented functionality will be available in Analog Way's booth #C7125 during InfoComm 2014, on June 18-20 in Las Vegas, USA.

Analog Way is pleased to add perspective layer animation to the **Ascender 48 (Ref.ASC4806)** Mixer Seamless Switcher. Compatible with computer and video sources, this new feature allows creation and animation of layers with a virtual viewing perspective in real time to create top-notch presentations.
The perspective layers can support the same seamless transition effects as any other layer.
Using the Preview/Monitoring output of the **Ascender 48,** the operator can display the perspective layers in real time in order to see and arrange all layers and presets as wanted.

Creation and management of the perspective layers can be managed without limitation directly from the **Ascender 48**'s **Web RCS**, a user-friendly interface designed to fully prepare a show and control it live.

Equipped with 48 scalers, the **Ascender 48** is a powerful 12x4+1 Multi-screen Seamless Switcher offering Mixer, Hybrid, Hard Edge and Soft Edge configurations to fit any application.
An exclusive preview of the **Ascender 48** featuring perspective layers will be offered during InfoComm 2014 in booth #C7125. Visitors will have the chance to experience real-time management and flexibility of perspective layers directly using the **Ascender 48**'s **Web RCS.**

Analog Way, Pioneer in Analog, Leader in Digital

Analog Way is a leading designer and manufacturer of presentation switchers and image converters with worldwide locations. The company designs a wide range of computer to video scan converters, scalers, seamless switchers and up/down converters. The products provide the most advanced solutions in the Broadcast, AV, Rental & Staging, Church, Corporate and Industrial markets.
