Input filler card for LivePremier™ series

Ref. ACC-AQL-IN-FILLER

Field swappable input filler card for LivePremier™ series

FULLY FUNCTIONAL

HARDWARE PROTECTION

Overview

The Analog Way **ACC-AQL-IN-FILLER** is a field swappable input card for **LivePremier ™** series required when at least one input slot related to a generic input card must remain without input connectors (the global number of inputs is a multiple of 4 or exceptionally unused generic input card). This board is designed to maintain the LivePremier unit fully functional and to protect the hardware of the generic input card.

Key features

▶ Field swappable card (not hot swappable)
▶ Allows to leave an input slot without connectors
▶ Keeps the unit fully functional (multiviewer, snapshots…)
▶ Protects the hardware of the related generic input card
