## Epicto Relies on Analog Way's LiveCore™ Series for German National Day

"Tag der Deutschen Einheit" is a German National Day celebrated every year on October the 3$^{rd}$ to commemorate Germany's reunification. This year was the 25$^{th}$ anniversary of the reunification. For the occasion, a huge LED screen structure of 52.5m wide and 11.5m high was installed in Frankfurt, representing the city's skyline.

**Epicto**, a full service audio-visual company based in Germany, was in charge of the video and used an **Analog Way's Ascender 32** Presentation Mixer to exhibit contents on screen. Contents were displayed on both sides of the structure so all contents needed to be mirrored. Therefore, all the four outputs of the **Ascender 32** were used, two for the front and two for the back of the structure.

Bernd Fischer, the Technical Director at **Epicto**, says: *"The Ascender 32 is a very reliable system, and in my opinion, it's not necessary to install a complete backup system."*

**Analog Way, Pioneer in Analog, Leader in Digital**

Analog Way is a leading designer and manufacturer of presentation switchers and image converters.

The company designs a wide range of computer to video scan converters, scalers, seamless switchers and up/down converters. The products provide the most advanced solutions in the Broadcast, AV, Rental & Staging, Church, Corporate and Industrial markets.
