

Analog Way Processors drive Wraparound LED Screen and Ticker at Wynn Race & Sports Book

The Wynn Race & Sports Book has reopened in Las Vegas in a panoramic visual environment built around U-shaped Silicon Core LED video screens driven by Analog Way processors. The new book enables sports fans to place wagers on current and future sporting and racing events, relax at the bar or just watch all the live game action.

18 months in the making, the nearly 1,600-square-foot Silicon Core LED video screen replaces three rear projection screens that were previously the centerpiece of the room. The 1,176-tile, 21 million pixel display curves as it wraps around two corners of the room. The LED wall has the flexibility to place video windows wherever they're wanted while an eight-segment ticker at the base of the screen scrolls constantly.

The entire LED canvas – the wall and its windows, layers and tickers – has eleven 2K outputs driven by three Analog Way Ascender chassis and an RCU Master Controller. Analog Way delivers pixel perfect, edge-to-edge scaling, which was required to seamlessly stitch the ticker together into one giant ribbon using multiple scaled video layers – a feat that competitive products are unable to achieve.

[The Big Picture At Wynn](#)

Final client:

The Wynn Race and Sports Book

Location:

Las Vegas (USA)

Analog Way products:

- Ascender 48 - 4K - PL (3)
- Rackmount Control Unit (1)

Analog Way – Pioneer in Analog, Leader in Digital

Analog Way is one of the world's leading designers and manufacturers of innovative equipment dedicated to the professional audio visual industry. Since 1989, Analog Way has developed and manufactured a wide range of high-end solutions and reliable equipment for professional AV applications including video wall processors, mixers and seamless switchers, event controllers and multi-format converters, as well as software and integration tools. With the acquisition of the Finnish media server manufacturer Picturall, Analog Way added an extensive range of heavy-duty media servers to its portfolio. Analog Way products provide premium solutions for Rental & Staging, Corporate, Broadcast, Institutional, Education, and House of Worship markets around the globe.
